Introducing

ELECTRIC TRUCK YOU CONTROL

A totally new category for kids 6 and up.

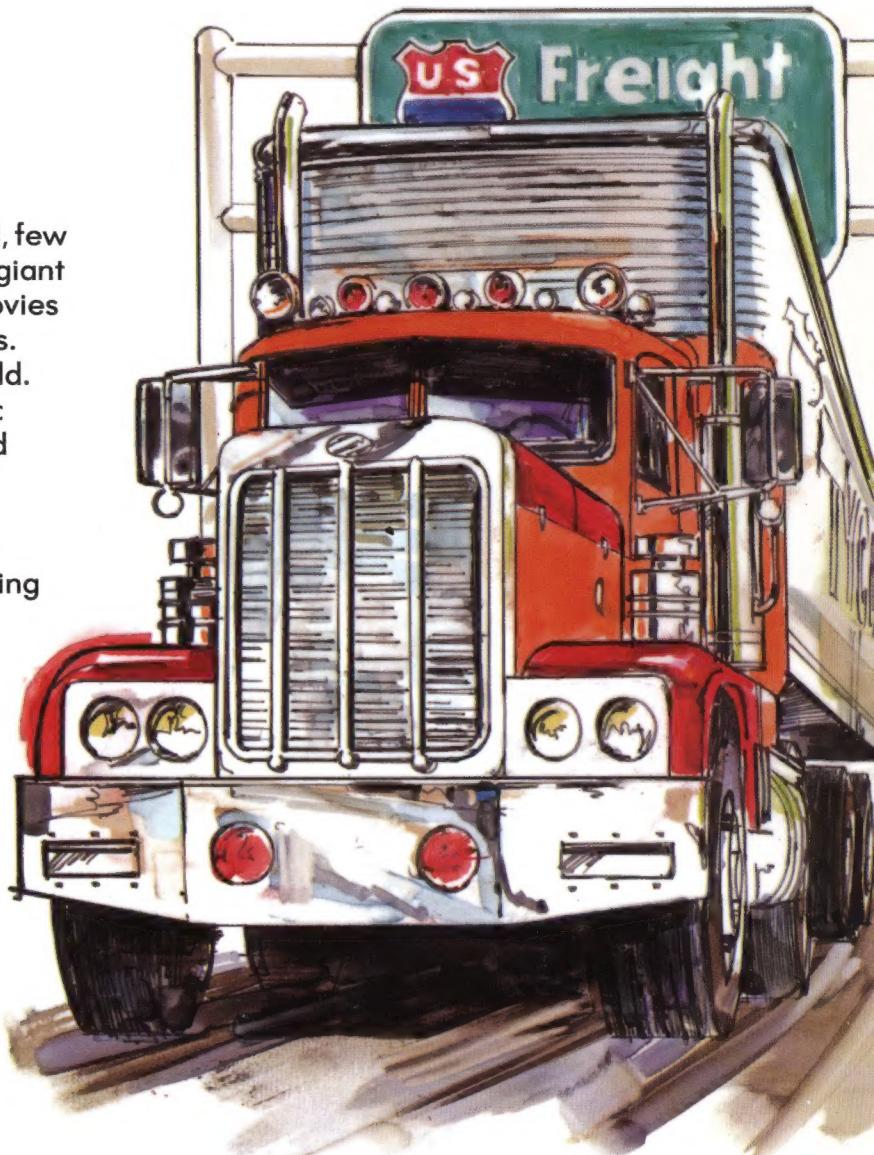

You know how much kids love trucks. To a child, few things can compare with the thrill of driving a giant 10-ton truck down the highway. On TV, in the movies and on the highway itself, kids see these trucks. They're an important part of a youngster's world.

That's why the time is right for U.S. 1 Electric Trucking. A whole new concept where the child actually controls all the action! There are logs, pipe and gravel to load and unload. Trucks to move down the road, slow down, back up and then get moving again. There's always something to keep his attention and interest.

We've spent over two years developing, testing and refining U.S. 1 Electric Trucking. And as a result of extensive Market Research, we've built in all those elements of play demanded by both parents and children...control, challenge, imagination and most of all, fun. We've designed it for children as young as 6, even before they're ready for electric trains and racing.

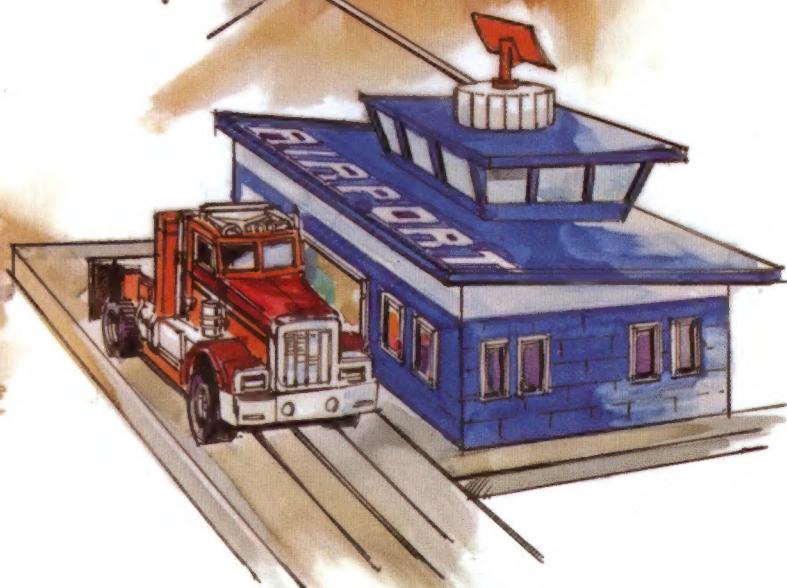

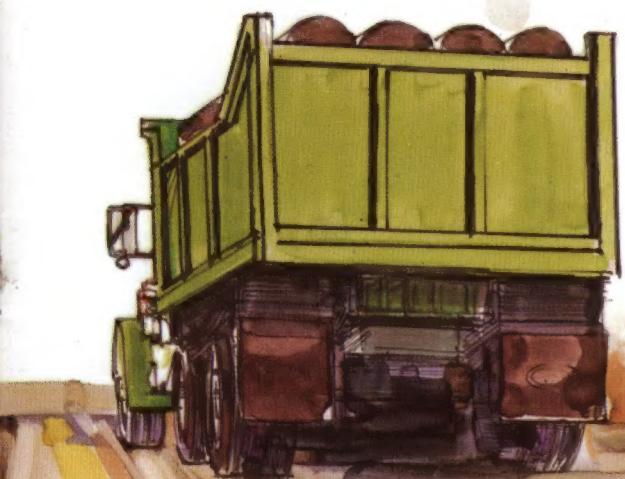

You can add to a set at any time, from the wide range of accessories available. The appeal of U.S. 1 extends well beyond those early years. U.S. 1 Electric Trucking is a system that grows as a child grows.

U.S. 1 Electric Trucking. It's more than a toy...it's a hobby.

LONG HAUL TRUCKING

No. 3215

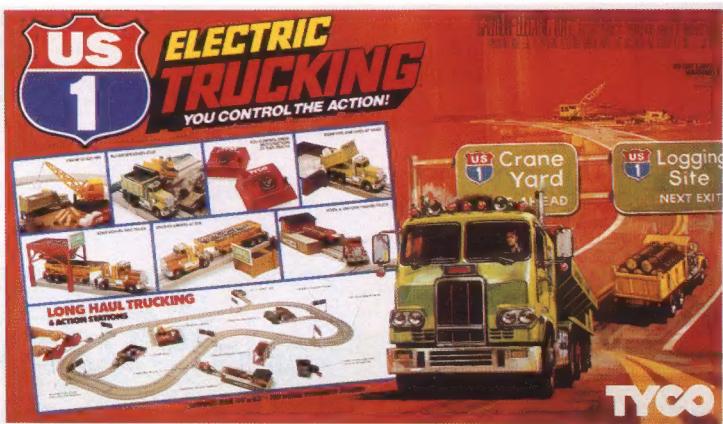

NEW

You control all the action of this big US-1 Electric Trucking set. All the excitement and fun of loading, hauling, dumping, hitching, and unloading. Run a powerful Gravel Truck with its own Trailer along the highway. Slow down, back up to the Operating Gravel Hopper, and load up. Drop the gravel at the Gravel Bin; then go to the Terminal, where you unhitch the trailer. Then pull the Dump Truck up to the Operating Crane and load it with pipe—move on out and dump them at the Yard. Let the Bulldozer automatically load logs, then dump them before you roar down the highway for another load of pipe. Play with both trucks alone or with friends.

Contents: 1—Dump truck • 1—Truck cab • 1—Gravel trailer • 18 sections of track (1—9" straight, 3—6" straight, 5—9", 1/4 radius, 2—9", 1/8 radius, 6—9" turnouts, 1—9" terminal with controllers) • 1—Dumpyard • 1—Gravel bin • 1—Operating gravel terminal • 1—Operating log loader • 1—Operating gravel hopper • 1—Operating pipe loader • 6—Highway signs • Wall power pack, U.L. listed.

LAYOUT EXPANDER SYSTEM

With Tyco's Layout Expander System you can build this exciting Railroad Empire in 4' x 8' of space—and you can do it in easy stages. Each component is available individually. The more you add the more fun you have. With the complete Layout Expander System, you can operate up to four trains. You can control two trains at a time independently, and you can switch any of the four trains among any of the three mainline tracks. You have remote control switching, blocking and uncoupling—unload freight—logs, ore, crates, pipe by remote control. Even a piggyback trailer. The easiest way to start your Railroad Empire is with the Track Layout Expander (Stock #7903). Here in one package is everything you need to expand any circle of track to a 4' x 8' double oval track layout, wired for 2 train operation (one train at a time with a single power pack). The Instruction Manual is included.

32-page layout expander manual contains step by step instructions with easy-to-follow diagrams and illustrations. You can obtain it at your Tyco dealer. Or send one dollar to Tyco Customer Service, Moorestown, New Jersey 08057.

TRU-STEEL TRACK

VIRTUALLY MAINTENANCE FREE
Unlike old-fashioned track, TRU-STEEL doesn't oxidize. So it hardly ever needs cleaning.

SMOOTHER PERFORMANCE

TRU-STEEL track gives you better electrical continuity for a more smoothly running train.

LOOKS LIKE THE REAL THING
The silver gleaming color of TRU-STEEL gives your train set greater realism.
